### **Important things for parents to practice this summer**

Dear Parents,

There are certain things that we as parents must try to inculcate in our children. These things are very important in the development of your child. So let's spend this coming vacation in a constructive manner.

1. You must share good stories about your childhood and your family history with your child.
2. Your children must wash their own plates after every meal. They must learn the importance of doing their own work with such activities.
3. Take your children or send them to their Grandparents for at least one week. Take pictures with them.
4. They must accompany you to your workplace in order to understand how hard you work to support their daily needs.
5. All family members must have at least one meal together, if possible more than one meal a day. Teach them not to waste food and the importance of farmers.
6. If possible ask them to help you in daily household work without disturbing their study and playing schedule.
7. Raise a small kitchen garden in your backyard if you have space. Encourage them to plant some seeds. They must water these plants as necessary till they grow.
8. You as a parent must learn 5 new words in English and list them in a notebook. Try to speak small sentences in English with them whenever it is possible.

**Regards**
